

Re-Energize and Re-Vitalize with VÍsi Energy

Let's be honest. You're looking for more energy. Whether it's work, family and home responsibilities, a second job or going back to school, today's modern lifestyle has most of us feeling fatigued.

The question is, where are you getting your energy? The energy drink craze is nothing new. They're everywhere—grocery stores, gas stations, on the internet—basically everywhere you look. And if you're a regular consumer of these products, whether it's an energy drink, morning latte, or caffeinated soda, you know it's not really solving your fatigue problem. In fact, the harsh stimulants, sugar, added caffeine and other synthetic chemicals in these products deliver a "false" energy followed by a crash, only making the problem worse.

Is there a solution to this problem? Is there a product that can deliver an all-natural, sustained and healthy energy without the dreaded crash or harsh stimulants?

Yes, there is a solution. Introducing VÍsi Energy.

VÍsi Energy: The All-Natural Energy Solution

VÍsi Energy is a delicious, all-natural energy drink that packs a powerful nutritional punch. Featuring ATP, VÍsi's whole foods energizer and our proprietary Scandinavian berry blend, this unique formula combines an array of super nutrients that are proven to optimize the body's energy production, helping you safely re-vitalize and re-energize your health and life.

What's In VÍsi Energy?

- **Scandinavian Berry Blend:** Features the potent Arctic Cloudberry, Lingonberry and other active berry antioxidants, this blend protects the cells, thereby optimizing cellular energy metabolism.
- **Adenosine Triphosphate (ATP):** ATP delivers the exact molecule the human body needs to create energy. Extensive scientific evidence shows ATP produces a dramatic effect on circulation without adversely affecting the heart rate or blood pressure.
- **Whole-Foods Energizer:** Featuring spinach, broccoli, blueberry, and raspberry, this blend delivers a super-dense, energy-friendly nutrient profile.
- **Guarana:** A natural source of caffeine and sustained energy driver.
- **Yerba Mate:** Contains xanthine, theobromine, theophylline and natural caffeine, all of which act synergistically and help support the adrenal glands.
- **Branch-Chain Aminos:** L-isoleucine, -lleucine, and L-valine are used in the energy cycle to bind to the receptor site as tryptophan, which helps you avoid the "tired" feeling.
- **CoQ10:** Helps create aerobic/cellular (mitochondrial) energy; supports cardio function

The Power of the Scandinavian Summer

Intense, concentrated and filled with extremes in light, power and sun, the Scandinavian Summer infuses the region's native plants with an unmatched potency of Nature's goodness. After having spent many months in harsh conditions and frigid temperatures, these plants—particularly the Arctic Cloudberry, Lingonberry, Vikingberry and others—soak up the Nordic energy and sun with mystical speed. The extremes in temperature, climate and season endow these berries and plants with far more nutritional potency than most others found on the planet.

Arctic Cloudberry & Lingonberry: A Potent Nutrient Combo

At the heart of VÍSI Energy is its proprietary Scandinavian Berry Blend, which features two particularly remarkable berries.

The Arctic Cloudberry, also called "Scandinavian Gold," boasts a stunning nutrient and benefit profile. It is rich in vitamins A, C, E, B1, B2, B3 and B6, as well as calcium, magnesium and benzoic acid. The Cloudberry also contains more vitamin E than any other known fruit or vegetable. The seeds of the Cloudberry also contain fatty acids that are crucial for numerous body organs and systems.

The Lingonberry also has astounding properties. It contains high levels of organic acids, vitamins C and A, B vitamins, potassium, calcium, magnesium and phosphorous. This berry also boasts rich reserves of flavonoids, lignans and resveratrol. It has been used in Europe for centuries in a variety of traditional uses ranging from gastrointestinal upset to joint discomfort.

What Does the Science Show?

Hundreds of studies have been conducted on the ingredients in VÍSI Energy. In fact, researchers from Finland recently found that three of the primary berries in VÍSI Energy possess significant cell-protective properties:

"[Cloudberry, lingonberry and vikingberry] seem to have great potential as a source of chemopreventive components."

– Asia Pac J Clin Nutr. 2008; 17 Suppl 1:123-5

How Can VÍSI Energy Help You?

- 1. 100% Natural Ingredients:** Low in calories and sugar FREE. VÍSI Energy has no harsh stimulants, synthetics or added caffeine.
- 2. Promotes Sustained Energy:** VÍSI Energy delivers all-natural, sustained energy to help you power through your day.
- 3. Boosts Performance:** If you have an active lifestyle or you're an athlete, then VÍSI Energy is the perfect solution for you.
- 4. Fights Fatigue:** Need to get rid of that afternoon slump? VÍSI Energy provides the perfect pick-me-up for the entire day.
- 5. Provides Superior Antioxidant Protection:** VÍSI Energy can help neutralize free radicals, thereby protecting the body's cells for optimal energy production.
- 6. Encourages Anti-Aging Effects:** The wide array of nutrients in Energy can boost energy and improve overall health, helping you feel and look more youthful.
- 7. Encourages Mental Clarity & Focus:** The antioxidants in Energy can protect the brain and boost mental activity.

How to Use VÍSI Energy

VÍSI Energy come in a convenient packet that allows you to instantly drink VÍSI anytime, anywhere. Mix one (1) packet with 8-16 ounces of water. Shake well and enjoy.
